Information about present pregnancy

Trimester	Date	BP	Weight	Urine	Clinical Findings	Remarks
First						
Second						
Third						

Bladder

Bowel Habits

Menstrual History:

Marital History :

Obstetrical History

No. of pregnancy	Date & Place of delivery	Duration of pregnancy	High Risk Factor	Nature of labour	Puer-perium	Baby	
						Sex Birth Weight	Present Health

Past History

Jaundice / Surgery / Blood transfusion / STD / TB / Any other

Family History

Hypertension / Diabetes / TB / Multiple pregnancy /
Cong. anomalies

Personal History

Addictions

General Examination

Pulse	Temp	B.P.
Anaemia / Stomatitis / Pedal Oedema		Breast / Thyroid / Varicose veins

Systemic Examination

CVS

RS

CNS

Obstetric Examination

(A) Per abdomen

Height of Fundus	Liquor	Presentation
Position		Engaged / Not engaged
Foetal Heart Rate		
Estimated weight of foetus		

(B) External genitalia

Per Speculum
Cervix, Vaginal discharge

(C) Per Vaginum

Cervix - effacement
- dilatation

Membranes: Present / Absent

Presenting part

Level of presenting part in relation to ischial spines (in cm.) [Station]

Sacral promontory: Reached / Not reached

Diagonal conjugate (in cm.)

Sacrum well curved / Straight

Ischial spines: Prominent / not prominent

Pelvic side walls: Convergent/Divergent/parallel

Sacro sciatic notch

Sub - public angle

Transverse diameter of outlet

Type of pelvis Gynaecoid / Android / Anthropoid / Platypelloid

Plan: Vaginal delivery / LSCS / TOLAC
