NAMASTE AYUSH – National AYUSH Morbidity and Standardized Terminologies Electronic Portal

About NAMASTE AYUSH Portal:

1. The NAMASTE AYUSH portal is an official digital initiative by the **Ministry of AYUSH, Government of India**.
 2. It is designed to standardize medical terminologies, document morbidity patterns, and promote evidence-based practices in AYUSH systems (Ayurveda, Yoga, Naturopathy, Unani, Siddha, Sowa-Rigpa, and Homoeopathy).
 3. This portal integrates electronic health records (EHR) specific to AYUSH and supports digital healthcare transformation for AYUSH practitioners and institutions.
-

Purpose and Objectives:

1. To maintain a **national morbidity database** for AYUSH systems.
 2. To develop and update **standardized medical terminologies** across AYUSH disciplines.
 3. To enable **clinical documentation** in AYUSH practices for research, education, and policy formulation.
 4. To improve **patient care, clinical documentation, and disease surveillance**.
 5. To promote the use of **e-health records** within AYUSH healthcare delivery systems.
-

Features of the NAMASTE AYUSH Portal:

1.  **Standardized Terminology:** Uniform coding system for diseases and treatment procedures in AYUSH.
 2.  **Morbidity Reporting:** Practitioners can report and document cases based on AYUSH parameters.
 3.  **Electronic Health Records (EHR):** Digital patient records specifically designed for AYUSH modalities.
 4.  **Data Analytics:** Provides epidemiological data insights to policymakers and researchers.
 5.  **Integration with National Health Systems:** Aligns AYUSH data with mainstream healthcare for better integration.
 6.  **User-friendly Interface:** Designed for easy usage by AYUSH practitioners, hospitals, and colleges.
-

Importance for NEXT AYUSH Examination:

1. The NEXT (National Exit Test) for AYUSH is expected to focus on **evidence-based clinical practice**, digital healthcare, and morbidity management.
 2. Questions may be asked from areas like:
 - Purpose of NAMASTE AYUSH Portal
 - Features of Electronic Health Records (EHR) in AYUSH
